

## Interim Leadership Solutions

Morgan Hunter HealthSearch (MHHS) provides interim leadership and executive search solutions for hospitals and health systems throughout the United States. MHHS utilizes a niche-based approach combining the scope of a national firm with the high-level, personal touch of a client-centric organization. Our services fulfill roles at the Chief, VP, Director and Manager levels.

MHHS **Interim Leadership Services** provide the following solutions:

- Coverage for the vacancy of key leadership roles to ensure operations continue moving forward during a time of transition.
- Supplement to the existing leadership structure to drive specific initiatives or projects.
- Mentoring of existing leader and/or team.
- Consultation/Operational turnaround in the form of assessments and/or implementation of action/improvement plans.

Why utilize MHHS **Interim Leadership Services**?

- Contingent-based process in which you don't have to commit to us until after you have interviewed our resource and determined they fit your need.
- You directly employ or subcontract the interim resource, thus, you control compensation, travel schedule, travel costs and project timeframe.
- Transparency: All costs are known, including our monthly interim fee.
- Cost: Our process typically saves thousands of dollars each month versus traditional "consulting" firms.
